

COMPACT LIFT 4000

A heavyweight in the standard class.

The lift is driven by cogwheels that run on homogeneous gear racks. The load tray manages up to 750 kg.

COMPACT LIFT 4000

The Compact Lift 4000 vertical storage lift enables you to handle heavy and bulky goods in your business, whilst also increasing efficiency in your warehouse. It can easily handle products that measure up to 4 metres long, and each loading tray can be loaded with weights of up to 750 kg. The Compact Lift 4000 is the evolution of one of our standard models, making it a safe choice and value-for-money alternative. Just as with our other models in the Compact Lift range the 4000 always delivers a very high level of operational reliability, because it is based on our innovative and unique technology where the lift is driven by secure cogwheels that run on homogeneous gear racks. This delivers a very high level of operational reliability. In addition, it also ensures safe and secure stock management as only authorised staff have access to items in the warehouse.

TECHNICAL INFORMATION

- Max. load capacity: 50,000 kg
- Height: 3,000–16,000 mm
- Width: 4,477 mm
- Depth: 2,998 mm
- Width, load tray: 4,006 mm
- Depth, load tray: 820 mm
- Tray divider: 25/50 mm
- Max. load weight: per load tray: 750 kg
- Goods height measurement (in 25 mm intervals)
- Goods height measurement: option up to 1,000 mm
- Safety curtain for personal protection
- Storage optimization
- Weight check
- Password protection
- Group rights and authorisation
- Language selection
- Ambient temperature / Relative humidity (%RH) no condensation: 2–40/10–85 %
- Voltage, 3-phase: 400 V
- Current, AC 50Hz (A): 25/32
