

Quality policy

Weland Solutions delivers Swedish-made and reliable quality products with close proximity to good service. A desire to constantly improve drives the company's development forward. Weland Solutions is part of the family-owned Weland Group, which advocates a flat organization and fast decision-making processes.

The employees' competence, commitment and responsiveness characterize the daily work at the company. High quality requirements and goal-oriented work have made us one of the leading manufacturers in our industry. We shall be a reliable partner in a long-term collaboration for efficient warehouse & logistics management.

Our strength and competitiveness lie in our ability to satisfy the customer's needs by delivering products of the right quality, at the right time and at the right price.

Core values

- That each delivery should be a recommendation for future business
- Ensure delivery time
- Work systematically to minimize quality failure costs
- Work continuously with our improvement work to constantly reach higher quality.
- Actions are based on facts and a holistic view of the business and are carried out with a long-term perspective
- Work to monitor & fulfill the requirements placed on us.
- Work for a constantly improved quality
